Guide to Joining the HSIL Hackathon Slack Workspace

Slack is the **primary coordination and communication platform** for the HSIL 2026 Hackathon. All organizers, coordinators, participants, and communications leads are required to join the Slack workspace to receive updates and collaborate effectively.

Step 1: Accept the Slack Invitation

1. You will receive an **email invitation** to join the HSIL Hackathon Slack workspace.
2. Click the invitation link to access the workspace.
3. Log in using an existing Slack account **or** create a new Slack account if you do not already have one.
4. Once logged in, complete your **Slack profile** (name, role, hub/country) to help with identification and coordination.

Step 2: Join the Appropriate Channels

After logging in, all members are expected to join **specific channels based on their role**.

Channel Structure and Participation Guidelines

1. Coordinator Channels
Who should join:
All Hub Coordinators, Regional Leads, and Core Organizing Team members.

- **#all-hub-coordinators**
  This channel is for all coordinators across all hubs globally.
- **Regional Hub Channels (e.g., #africa-hubs, #asia-hubs, #europe-hubs)**
  These channels are for coordinators and organizers within specific geographic regions.
- **Country-Specific Hub Channels (e.g., #ghana-hub, #brazil-hub)**
  These correspond directly to the hubs listed on the Hackathon landing page.

2. Participant Channels
Who should join:
All accepted Hackathon participants.

- **Country-Specific Hub Channel**
  Each participant must join their assigned country hub.
- **#general-announcements**
  This is a global announcements channel for all participants.
- **#introductions**
  A community-building channel for all participants and organizers.

3. Marketing and Logistics Channels
Who should join:
All Hub Coordinators, Communications Leads, and Logistics Leads across all hubs.

- **#marketing-and-communications**
  Coordination of outreach, messaging, and approval of Hackathon communications.
- **#logistics-and-operations**
  Coordination of platforms, schedules, resources, and Hackathon operations.

Important Notes

- This is a global community, all members are expected to communicate with respect, professionalism, and tolerance at all times.
- Please only post in channels relevant to your role to keep communication efficient.
- Announcements shared in #general-announcements should be treated as official.
- Country-specific matters should remain within country hub channels.
- Slack will be used throughout the Hackathon lifecycle — before, during, and after the event.
